

BOX CAR RACE

~Rules and Regulations~

- Find a cardboard box with a minimum dimensions of 29 inches (length) x 15 inches (width) x 19 inches (height). A box with clean sides works the best, but use a box that best fits your son or daughter.
- Tape the flaps shut on both the top and bottom - it is optional to remove the bottom flaps if you wish.
- Cut a hole in both the top and bottom of the box if needed so the box will fit down over your child's body.
- Mount or cut out handles or attach straps to fit over the shoulders to "carry" your car.
- Color, paint, or spray the entire exterior of your box and decorate it to resemble your favourite racer! Make sure you pick a number and put it on both sides big enough so fans can read it.
- Use paper plates for wheels and attach them with glue or thumbtacks.
- Avoid attachments on your car that will make them too heavy to safely run with it.
- Racers must wear running shoes that either tie or have velcro straps.
- Wear socks that slide easily on and off.

RACERS WILL BE DIVIDED INTO AGE GROUPS

MINI STOCK Ages 2 to 6

MOD LITES Ages 7 to 9

MODIFIEDS Ages 10 to 12

The race will take place on the front stretch.

The start/finish lines will be marked by orange cones.

RULES FOR THE PIT STOP

At the PIT STOP, the racers stop and remove their boxcars. They sit on the carpet squares in front of their parent or adult helper. The adult (PIT CREW) quickly removes the child's shoes and socks.

ONLY ONE PAIR OF SOCKS WILL BE PERMITTED TO BE WORN. The adult then quickly replaces their socks and shoes, securing them properly. This is your pit stop. The child then stands, puts their boxcars back on, and runs to the finish line. First one to the finish line wins! Prizes for each divisional winner will be presented!
